A new international art festival coming up this fall in Iceland's vibrant capital!

SEQUENCES will connect local and international video, installation, sound and performance artists in a dense program in Reykjavik in October 2006. For the first time in Iceland the scene will celebrate contemporary art in a festival that will become a recurring event.

Significant for Iceland's vibrant art scene is the strong interrelation between visual arts, sound and performing arts. These nexuses are accountable for specific dynamic creative processes which develop especially in time-based art projects.

SEQUENCES will invade established spaces (museums and galleries) as well as public spaces in the city center of Reykjavik.
